## Zenobla and Insight, Long Shots, NEW EAST RIVER BRIDGE CO. Win—A Thimble Rigger Beaten.

(SPECIAL TO THE EVENING WORLD.)
GUITENBURG RACE TRACK, Feb. 10.—The bright melting rays of the sun made Gutten-

The usual crowd of regulars came out and One individual in the crowd was happy over the distinction of being the first man to beat

the shell and pea game, which is better known by the name of "thimble-rigging." He was one of a crowd in a stage. Anothe of the crowd was a . thimble-rigger.

The quiet man watched the game but said nothing. Suddenly he reached over and lapped one hand on a shell.
"I'll bet you \$20," he said. He didn't re-

move his hand. If he had the thimble-rigger would have changed the shells. Instead he reached down in his pocket with

the other hand, pulled out a roll and stripped off a \$90 bill with his teeth. Then he leaned over, and, opening his outh, allowed the bill to futter on the game-

ster's board. Then he lifted the shell and the pea was there. He won and he bet no more. The favorite in the first race to-day was

otover. He ran so well yesterday that the Shotover. He ran so well yesterday that the talent thought he was a moral and played accordingly. Fernwood was quietly backed at second-choice odds, and his owner and his friends were very aweet on his chances.

Marie Lovell and Mariy B, were also fancied and well played.

The favorite was well handled by Josh Jones and won handly. Fernwood was second and Marty B, who tire! at the end, turk.

Bir George was favorite for the second race, but the talent didn't seem to back it nuch. They seemed to think Claudine was an airtight, and they pounded it down from 10 to 1 to second choice.

Beeton, a recent arrival from Clifton, was

light, and they pounded it down from it to a cond enoise.

Beston, a recent arrival from Ciffton, was third choice, while Sandatone and Zenotia went begging. The last-named won easily from the favorite. Oberin was third.

There were any number of good things in the third race, and it was the best betting race of the day. Golden Reel and Warpeake rated about even favorites throughout, while the others, save John Jay S., were at 7 to 1 each. There was along delay at the post, which was all in favor of the lastweight insight, and he finally got away in front and stayed there from flag to finish. Salile Harper was second and Golden Reel third. FIRST RACE.

### The Bill to Extend Free Lecture Facilities Has Passed the Assembly.

Assemblyman Sulzer's Eloquent Plea for Popular Education.

Indorsement of "The Evening World's" Battle for the People.

(SPECIAL TO THE EVENING WORLD.)
ALBANT, Feb. 10. —Another great victory has been won for the cause so long and persistently advocated by THE EVENING WORLD. The Assembly passed last night, by a unanimous vote, Mr. Suizer's amendment to the Evening Free Lecture law.

This amendment provides, as THE EVENING World has explained to its readers, that the Board of Education shall have the power to hire halls for the free lectures to working men

The bill has been before the Legislature for several weeks, and was carefully and thoroughly discussed in the Committee of the Assembly before it was brought to the attention of that body for final action.
It received the approval of the Assembly

without a dissenting voice, and now it only remains to be brought before the Senate and to receive the signature of the Governor to make it a law. Assemblyman Suizer, in his masterly pre-

sentation of the merits of the bill, said:

"This bill seeks to amend the law known as the Act for Free Lectures for Workingmen and Workingwomen in the city of New York. It seeks to enlarge the scope of that law, which has been such a boon, and is now nightly helping so many men and women in the great city i have the honor in part to represent.

"Under the law as it now atends the Commissioners of the locard of Education are conduct to the use of the schools, and of the schools as they now sre. The accommodations in the schools are for children—the scatters in the schools are for children—the scatters are needs and intended for boys and girs. These lectures are held at hight and are attended by men and women.

"As you can readily imagine, it isn't very comfortable for a man or woman to sit in a child's assaiduring one of these free lectures. The auditors are cramped and crowded. They grow nervous, fidgety and irrilible, and sometimes haf the lecture falls on barren soil. You cannot get a man in a boy's seat, any more than you can get a man in a boy's seat, any more than you can get a man in a boy's seat. sentation of the merits of the bill, said:

The auditors are cramoed and crowded. They your to work the second accommodations are inadequate and in- some of the work of the city the colto accommodations are inadequate and in- summittent, and some than you can get a man in a boy's cost.

Dr. Heber Newton on the Proposed Clerical Investigation of Spiritualism.

**Prominent Spiritualists Deny the** Need of Such an Inquiry.

Their Faith, They Say, Is as Firmly Established as Theology.

No new names of eminent New Yorkers have been added to the list of signatures to the pros-pectus for the formation of the Psychic Invesigation Association, originated by Rev. Drs. Savage, Hate and Horton, of Boston; Mrs. Mary A. Livermore, Rev. T. Erness Allen, of Providence, and Rev. Dr. R. Heber Newton,

of All Souls' Church.

The work will not be begun until the list is much extended, but when it does begin-then the world shall have the beneat of a thorough expose of modern Spiritualism, by which to judge whether Spiritualism is itself a fraud or only the innocent sufferer through frauds per-petrated by the unscrupcious in its name. Dr. Newton is "a little under the weather

with a bad cold at his Garden City home. Recarding this new movement he says: "My health prevents my personal investigation of Spiritualism, but I have investigate very searchingly at second hand, through the best writers on the subject. Probably Mistaken Rumor About Clifton Track.

## POSTPONEMENT AT DUNDEE.

A Queer Performance Attributed to Al Farrow.

It is reported that George H. Hus uncle of William A. Engemen, the young man who is part owner of the Clifton track, hen who is part owner of the Clifton tract, hes purchased his nephew's interest in the Passale County Agricultural Society. It is also asserted that he will reopen the Chifton track in a few weeks and continue the racing. This report is probably an error. It may be that the transfer of interests has taken place, but inasmuch as Clifton's dates have been cold to Guttenburg, it is not probable that Mr. Engaman will break faith by reopening this track. Such an experiment would be rifficulture, for with Guttenburg and Dundee in full awar, with unlimited betting, what chance would pour Clifton have with its described ring. Guttenburg evidently helds a full hand, and it will be hard work for any of the other tracks to draw eards high enough to beat it. eards high enough to beat it.

Queer hoose, that Westerner, Al Farrow. He got out of his stall Menday night, so the story goes, wandered away back in the country semewhere, and was finily feased early in the morning at Fort Lee. Everybody knew of it at the track yesterday, and wouldn't bet un him. Odds went up to 10 to 1 and he galloped in. He conduit even gallop on daturday. Evidently his long wandering in the backwoods tad done him good.

Jockey Whybern rode Roseville yesterday in a way that aroused the suspictions of the ever-watchful and alert Judge Burke. The latter immediately had Wayburn called before the Executive Committee and he got a severe-lecture. It was common report of the ring that Roseville was dead.

Old Wanderment appears to revel in just such weather as prevailed yeaserday. For and rain to him are as ganpowder smoke to to the old bettle-charger. He suiffs it from afar and, pricking up his care, rushes into the fing with fary onergy. Yesterday he was by several lengths and was full of run at the dask.

Hughey Penny made a creat mintake yester-day in saving Dixte for a finish. Dixte is like Sunday.
